

## International Workshop on Bone Mechanics and Tissue Engineering

### MENTORING SESSIONS FOR THE EARLY STAGE RESEARCHERS IN PROJECT CURABONE:

February 5, 2020

University of Zaragoza. Paraninfo Building, Zaragoza (Spain)

WHERE	Paraninfo - Martina Bescos	Paraninfo – Maria Luisa de la Riva
WHO	MICHAEL SKIPPER ANDERSEN BERT VAN RIETBERGEN	GWENDOLEN REILLY SCOTT HOLLISTER
15:00-16:00	DAVID LEANDRO DEJTIAR: Pre-planning tool for TKA based on kinematics and ligament balancing	-----
16:00-17:00	JONATHAN PITOCCHI Optimization of a custom-specific shoulder implant for Reverse Shoulder Arthroplasty (RSA)	GABRIELE NASELLO Bone Tissue Engineering for the Osteointegration of porous titanium implants
17:00-18:00	MARIA HILVERT Feasibility of bioresorbable Cranio-Maxillofacial applications.	SIMONE RUSSO Bone Tissue Engineering Scaffolding: combined in vitro/in silico degradation model
